

Bargaining Update # 04

CSU52 / Capital Power Collective Bargaining

Issued November 8, 2022

This information is intended for CSU52 members and for Capital Power Managers who oversee unionized staff falling within the CSU52 Bargaining Unit.

The parties are pleased to confirm that we have reached a Memorandum of Agreement.

As a reminder, the content of discussions at negotiations will be held in confidence until an Agreement is ratified. Collective bargaining is a sensitive process, and when dialogue occurs away from the bargaining table, it can jeopardize the success of negotiations.

Please respect this by NOT asking your bargaining team members about collective bargaining outside of the below information session.

The Union Information Session and Vote

The Union will provide an information session for membership and a date to vote on the Memorandum to ratify the deal. Both dates are to be determined.

The Company Information Process

The Company will provide an information session for managers following/subject to the ratification vote – date to be determined.
