

PRESIDENT'S MESSAGE

September 2, 2020

Good Day,

While I'm away from the office, I would like to clarify my last President's Message to the Membership (August 25, 2020). Neither myself, nor CSU 52, are opposed to either flex or remote work. The concern I have is about how the City of Edmonton has gone about surveying and reaching out to our Membership without first discussing these issues with your Union, particularly as some of the proposals directly affect parts of our Collective Bargaining Agreement. We are prepared to work collaboratively with the Employer but that needs to be done respectfully by both parties.

As always, my main concern is my Membership and protecting their rights and interests.

***Thank you,
Lanny Chudyk***
