

PRESIDENT'S MESSAGE

December 15, 2020

Good morning,

Once again, we will need to deal with work stoppages due to the emergency COVID-19 closure of many work locations. These closures and restrictions of services will affect much of our memberships, particularly at our City of Edmonton and Edmonton Public Library bargaining units.

While we have reached agreement with the Edmonton Public Library unit on how temporary layoff will proceed, we will be meeting with officials from the City of Edmonton to discuss how closures due to the provincial health emergency restrictions will proceed and how layoffs will be dealt with.

Our bargaining units at EPCOR, Capital Power and TELUS World of Science – Edmonton appear to be conducting business as normally as possible at this time with no new layoffs that we are aware of.

***Thank you and stay safe,
Lanny Chudyk***
